

Sprint CapTel and TIMS Software: The Perfect Combo to Certify no-cost Captioned Telephones for Patients.

Sprint CapTel gives you the power to offer patients a choice of captioned telephones, and certify them using the power and flexibility of TIMS software! By working together, Sprint CapTel and TIMS deliver a simple, all-digital way to get your patients back on the phone.

- ✓ **Nothing to download.** The latest version of TIMS (6.06) already includes Sprint CapTel certification, built right in!
- ✓ **All-digital process.** Right from a patient record, you can auto-populate a certification form, approve it, and submit it, all without leaving TIMS.
- ✓ **Certify patients faster.** In TIMS, certifications take less than a minute.
- ✓ **Ready to use TIMS to certify?** This [short video](#) that covers everything you need to know.

New to Captioned Telephones? Sprint CapTel's complete, no cost program includes everything you need for your practice, including literature and a demo phone. [Get your no-cost demo kit today.](#)
